Re: Donation

Thank you very much for taking your time to visit the Eye Centre and donate glasses to us.

The spectacles which are of most use to us are the reading glasses, which I gather are now available in supermarkets, off the shelf. These can literally be handed to a patient and they can see to read their bible or Koran again.

Dark glasses with no prescription are also useful as people with eye disease or those having recently had cataract surgery are very sensitive to light.

With many thanks for your support of our work,

Dr H.E.Roberts MBE MBChB MRCOphth FRCOphth
Medical Director
